

MA02 -1A

New Gas Spring Single Monitor Arm

MA02 -1A is excellent equipment for professional office. With the articulating gas spring arm reaches up to 485mm in height (VESA center to desktop), providing more height adjustments for you. Easily set your monitor to ergonomic height as per your needs. Thus, relieve the strain on your neck and shoulder and keep you healthy and productive.

With the highlights 3Q, Quick installation and release, Quick release cable management, Quick mount or release for monitor, it creates a better experience than 95% models in the market.
