

# USB Prepen

## XLR-to-USB Signal Adapter

USB Prepen is a Microphone XLR-to-USB Signal Adapter for Home, Office & Business Use.

It is a universal Plug and Play XLR Mic to PC Adaptor for Digital Recording w/ Mix Audio Control. The Adapter lets you use your most trusted microphones for all your digital recordings. A modular accessory that connects any XLR microphone to a computer to create better-than-CD quality recordings. Features universal computer compatibility and works w/ Windows PC, Mac and Linux operating systems. Makes it easy to record whenever you want, anywhere you take your computer – from the home studio, to the garage, to the road.
