

BSB USB Broadcast Kit

Next Gen. Broadcast Kit with 20mm big capsule

The BSB Broadcast Microphone is the next gen. products that fuel the next gen. creator movement. It's highly durable and mounted on top of a strong and Pro Arm. It features a headphone volume adjustment switch, and a 3.5 mm jack for connecting headphones. You can adjust the recording status at any time as needed.

The cardioid polar pattern automatically isolates your voice and muffles background noise, but be aware, this is a high precision studio grade microphone with 20mm golden plated membrane, please only use it in quiet environment.

A touch mute with light ring make you not afraid of emergency situations during streams, quickly calm down - one touch and it's ready! With its solid construction and high-quality materials used throughout, it is truly built to last.

This kit will bring you a better experience.
