

# USB MiniBig Flexible Arm Kit

## HD Streaming Mic Set

USB MiniBig Flexible Arm Kit is an HD streaming mic set consisting of a professional microphone with cardioid polar pattern that you just need to connect to a computer to enjoy its capabilities, and a set of accessories that allow you to place the microphone stably in the selected place.

A great care of workmanship and high quality of the materials used. All this combined with an elegant design makes it eye-catching and a best choice for those who demand quality at an affordable price.

The Arm is wide-range adjustable, allowing you to easily place the microphone in a selected place. With the pre-threaded cable, you can get a clean and elegance look, first one in the market. The Large double-layer pop filter has full metal mounting structure.

It's a versatility microphone for call, streaming, gaming, recording, podcasting, YouTube, Voice Over, Twitch, Zoom meeting, Skype chatting, online conference.
