

Home Studio

Compact Portable Microphone

HomeStudio is built with an integrated folding tripod base making it an easy microphone to transport and set up. Without any assembly, only need to unfold the three-legged stand directly then it can be plug and play. The non-slip rubber feet for stability and vibration dampening.

You can adjust the headphone level and enjoy latency-free monitoring. This is all-in-one package you have been waiting for. Ideal choice for recording, podcast, streaming, gaming.
